Specialty Class Descriptions

Aqua High-Intensity Interval Training (HIIT)/Tabata

Class pushes participants to the limit while providing the benefits of a pool with little impact on joints and features rigorous interval training, use of the pool wall and buoyant and resistant equipment. The HIIT class sets higher standards in water-based fitness that challenges class participants and swimmers of all ages and physical shape. Class formats may include timed high intensity intervals, elements of swimming strokes, modified plyometric and strength training, water aerobics, water polo and cardiovascular exercises featured in gym/studio boot camps. Depending on physical limitations, those who are unable to perform at the HIIT pace are welcome to participate following the same exercises with a lower intensity. Some of the proven benefits are: increased metabolism, fat burning, weight loss and improved cardio respiratory fitness.

Aqua Progressive Strength

Class consists of using various aquatic equipment in progressively intense intervals and core stability exercises (Note: Use of the aquatic equipment is not required). Core stability addresses balance and activities of daily living. After the intense muscular workout, class concludes with longer, enhanced stretching which aims to improve flexibility and range of motion.

HAT - Hips/Abs/Thighs

Regular cardio format class (5 min warm up - 25-30 min aqua cardio) followed by series of exercises focused on hips/abdominals & thighs. Modifications will be shown during exercises & participants can go at their own comfort level.

Wellness Pool Classes

This slower-paced class features low intensity exercises focusing on core stability and ranges of motion help to challenge balance and coordination. Exercises recommended by the Arthritis Foundation may be included as well as aquatic equipment (optional), games, yoga and Pilates. The class concludes with longer, enhanced stretching which aims to improve flexibility and range of motion. **Class size is limited to 12 participants.**

Zumba

Aqua Zumba blends the Zumba philosophy with water resistance, for one pool party you shouldn't miss! There is less impact on your joints during an Aqua Zumba class so you can really let loose. Water creates natural resistance, which means every step is more challenging and helps tone your muscles.
